Acrylic Capped Stone Resin
Made with 100% Recyclable Materials

25 YEAR GUARANTEE

A TOTAL WETROOM SOLUTION

Our wetroom trays, wall boards, floor boards, seating & furniture are all made from high grade extruded polystyrene (XPS) which has been coated with a special polymer modified cement into which is bonded a fibre glass mesh. The result is a strong, totally waterproof, thermally insulating, incredibly lightweight & easy to cut material that is transforming wetroom design.

CREATING YOUR PEPECT WETROOM IS AS EASY AS 1-2-3

1. Choose to install using a Wetroom Tray or Sloping Boards decide which drain option you want and add a sealing kit.
2. Take a look at the extra items available for your wetroom. Pick from: waterproof thermal boards for walls and floors, bath panels, seating kits, wall niches & a floating shelf.
3. Add additional fixings if you're creating a larger wetroom or are installing boards on the walls and floors.

Select Your Bath

Browse our wide range of freestanding baths. The paint service can be added to any freestanding bath which shows the Bath Painting Service Icon.

Choose Your Colour

Colour options are endless. We can match Pantone colours, RAL colours and the popular paint brands Farrow & Ball and Little Greene.

Transformation Time

Your bath will be sent off to our specialists to be carefully primed and painted with tough exterior eggshell paint which offers maximum protection against moisture, flaking and colour fading. The process takes just 7-10 Days.

Relax

Your one-of-a-kind bathtub will be covered by a 5 year guarantee and we'll include a small pot of matching paint, just in case there are any unforeseeable touch-ups needed in the future.

*Bath painting service is excluded from any promotional offers, discounts and trade deals.

INTRODUCING... **super-strong** ACRYLIC

- Smooth high gloss acrylic is solid in colour so it won't rub off or fade.
- A special mix of polyester resin seals in the baseboard, increasing rigidity and acting as a thermal layer so the water stays warmer longer.
- Fully encapsulated high strength baseboard.

super-strong ACRYLIC has many benefits over standard acrylic. Made using the latest materials and techniques it produces a bath that is as strong as cast iron but is warmer to the touch and retains heat longer than a standard bath. Most of our acrylic baths are available with **super-strong** ACRYLIC. The extra strength of our **super-strong** ACRYLIC makes it ideal for use in a shower bath where the weight is concentrated at one end, this puts extra strain on the structure of the bath but with **super-strong** ACRYLIC the bath remains strong and rigid.

The Bathroom Builder

Scale 1:20

Use our unique bathroom planner to quickly draw and plan your new bathroom. Simply measure your room and draw the outline using the graph above. Each square is 10cm x 10cm and the thicker lines are 1 metre apart. This will reduce your bathroom to a 1:20 scale.

Once your bathroom outline is correct, you can peel off the stickers from the opposite page and begin designing the layout. Peel and stick until you have the perfect layout for you.

Hints and Tips:

- Try to place toilets on external walls so the waste pipe can be horizontal.
- Change the direction your door opens to create more space in your room.
- Think about places to hang towels, toilet rolls and mirrors.
- Choose the right size radiator for your room, find out how many BTUs you will need.
